

IN THE SPECIFICATION:

Please enter the Substitute Specification as filed herewith. The specification has been amended so as to positively incorporate the Article 34 Amendments, which were received in the US Patent Office February 4, 2005, in the image file wrapper as a paper entitled "Documents Submitted with 371 Application" and including 23 pages, but which do not appear to have made it into the "Specification" of the image file wrapper.

Both, a marked-up version of the specification showing the Article 34 Amendments, and a clean copy thereof, are submitted herewith. No new matter has been entered.
